

## About PDC

Paug-Vik Development Corporation (PDC) is a wholly owned subsidiary of Paug-Vik Inc., Ltd. (PVIL), a native, shareholder owned corporation based in Naknek, Alaska. Since its inception in 1973, PVIL has grown to over 450 shareholders who live primarily in the Naknek, King Salmon, and South Naknek areas of the Bristol Bay region of Southwestern Alaska.

PDC offers a comprehensive range of construction, and environmental services throughout rural Alaska. Our satisfied clients include the US Air Force, Army Corps of Engineers, US Fish & Wildlife, US Postal Service, US Park Service, various Regional Housing Authorities, Native Village Corporations, and private sector businesses.

Based in Naknek, and managed by local individuals, we have a comprehensive understanding of project service requirements in rural Alaska. This allows us to effectively provide quality and value based construction, and environmental services.

Although PDC routinely competes effectively for Firm Fixed Price Bid projects, we feel that our strength is in our ability to assist clients in obtaining the best value for their dollar through design-build and value engineering. Our experience in providing construction and environmental services in remote Alaska locations enables us to match cost-efficient means and methodologies to owner requirements. Please contact Maurice Labrecque, General Manager, at (907) 246-4378 for more information.
